

The **FUNDAMENTALS** Division offers a variety of programs designed to provide students with a strong foundation in the liberal arts and sciences. These programs are designed to be flexible and to accommodate the needs of students with diverse backgrounds and interests.

FUNDAMENTALS Division:

The **FUNDAMENTALS** Division offers a variety of programs designed to provide students with a strong foundation in the liberal arts and sciences. These programs are designed to be flexible and to accommodate the needs of students with diverse backgrounds and interests.

The **FUNDAMENTALS** Division offers a variety of programs designed to provide students with a strong foundation in the liberal arts and sciences. These programs are designed to be flexible and to accommodate the needs of students with diverse backgrounds and interests.

BIOLOGICAL Division:

The **BIOLOGICAL** Division offers a variety of programs designed to provide students with a strong foundation in the biological sciences. These programs are designed to be flexible and to accommodate the needs of students with diverse backgrounds and interests.

CLINICAL Division:

The **CLINICAL** Division offers a variety of programs designed to provide students with a strong foundation in the clinical sciences. These programs are designed to be flexible and to accommodate the needs of students with diverse backgrounds and interests.

DEVELOPMENTAL Division:

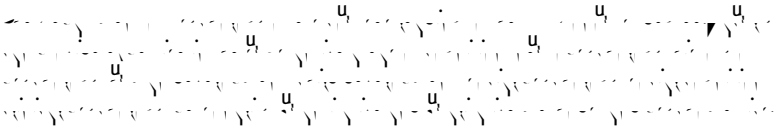

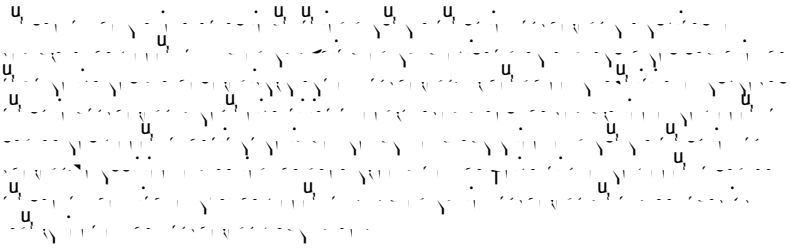

Developmental Psychology is the scientific study of how and why human beings change from infancy through childhood, adolescence, and adulthood. It examines physical, cognitive, and emotional development across the lifespan.

LEARNING & COGNITION Division:

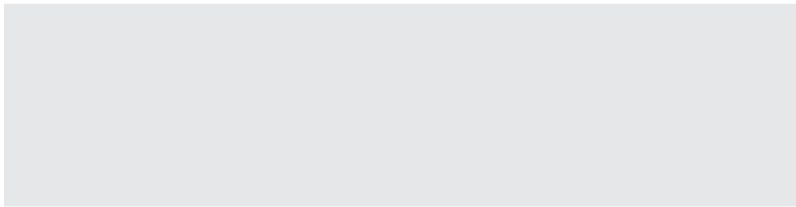

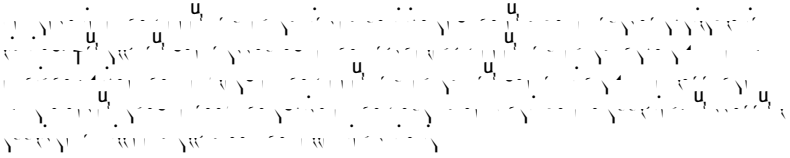

Learning and Cognition focuses on the processes of acquiring, storing, and retrieving information. It explores how the environment influences behavior and how the mind represents and processes information.

SOCIAL & PERSONALITY Division:

Social and Personality Psychology examines how individuals are influenced by others and how they think, feel, and behave. It studies social interactions, group dynamics, and the formation of self-concept and identity.
