

English as a Second Language (ESL)

English as a Second Language (ESL) courses are designed for students who are not native speakers of English. These courses provide the necessary language skills and academic preparation for students to succeed in college-level coursework. The curriculum focuses on listening, speaking, reading, and writing skills, as well as grammar and vocabulary.

ESL courses are offered in various levels, including ESL 173 and ESL 230. These courses are typically required for students who are new to the United States and need to improve their English proficiency before entering college-level courses. The courses are taught by experienced ESL instructors who provide individualized support and feedback.

Students who complete ESL courses successfully can earn academic credit towards their degree. This credit is applied to the student's transcript and can be used to fulfill general education requirements. The ESL courses are designed to be equivalent to college-level English courses, and students who complete them can continue their education without the need for additional language preparation.
