In addition to mainstream Economics, the Economics program at St. Thomas explores the interdisciplinary connections of Economics through a political economy approach.

The Department of Economics o ers (1) a Major in economics, (2) a Major in Economics with a business option, (3) Honours in Economics, (4) Honours in Political Economy, and (5) a Minor in Economics, as well as a variety of general interest courses.

Courses are o ered at three levels: introductory, intermediate, and advanced. The introductory level, ECON 1006, is a general interest course; this is a normal prerequisite for further studies in economics. ECON 1006 is also available in two one-semester courses, ECON 1013 and ECON 1023. Credit will not be granted for both ECON 1013 and/or ECON 1023 and ECON 1006.

The Department of Economics o ers a number of courses (including interdisciplinary courses) of general interest, as well as courses in economic analysis for those concentrating in economics. Courses for general interest students include:

- ECON 1006 Introduction to Economics
- ECON 1013 Introduction to Economics (Micro)
- ECON 1023 Introduction to Economics (Macro)
- ECON 2173 Economic Geography
- ECON 2203 Community Economic Development
- ECON 2213 Contemporary Economic Issues
- ECON 2223 Political Economy of Women: Selected Topics
- ECON 2303 Gender in the Global South
- ECON 2313 Multinational Corporations and Trade
- ECON 2333 Ecological Economics
- ECON 2403 Economics of Poverty
- ECON 3033 Labour Relations and Collective Bargaining

-98

- ECON 2423 Political Economy of Crime
- ECON 3233 Marxian Economics
- ECON 3323 Environmental Economics
- ECON 3333 Perspectives on Underdevelopment

ECON 1006 or ECON 1013 & 1023, or the permission of the instructor, is the only prerequisite for these courses.

At the advanced level, courses in the 3000 series are intended for students with a good background in economics, and courses in the 4000 series are reserved for advanced Majors and Honours students.

Please note that students who enroll in Honours economics, and Majors who opt to take EC7.8 36 9j (t studen)n8 36 109.46 cvqui who enr.8 EC7.ssioemsse ()] JETES/Spanlse/Spanlo takeT&al1T3

recommended to complete courses in Linear Algebra and Intermediate Mathematics, preferably prior to taking ECON 4013 and ECON 4113.

.

Students wishing to pursue a Minor in economics are required to take 18 credit hours of economics courses, including ECON 1006 or 1013 & 1023.

Students who elect a Major in Economics usually do so at the beginning of their second year; this enables them to take their economics courses in the best sequence. Students may elect a Major in Economics at the beginning of their third year, but their options may be restricted.

For a Major in Economics, 36 credit hours are required, including:

ECON 1006 Introduction to Economics (or ECON 1013 & 1023)

ECON 2103 Microeconomic Theory I

ECON 2113 Macroeconomic Theory I

ECON 2123 Quantitative Methods I

and at least one of the following:

ECON 2153, 3133, 3143, 3163, or 3173.

and the second second

ECON 3233 Marxian Economics

discipline at St. Thomas University or have received credit for an introductory statistics course taken in any discipline from another university.)

ECON-2153. Political Economy I

A theory course analyzing economic activities in their political and social context. Topics include: class and economic power, the labour process and the generation of surplus, economic instability, capitalism on a world scale, and the nature and role of government.

ECON-2173. Economic Geography

The course examines the spatial organization of global economic activity and the social processes which have contributed to and continue to alter that landscape.

ECON-2203. Community Economic Development (ENVS) (HMRT) (COPP)

A course which explores the theory and practice of community economic development. It will include the examination of case studies of successful community economic development. The focus will be on the appropriateness and applicability of the model to the Maritimes.

ECON-2213. Contemporary Issues

This is a course in economic policy analysis. The course will examine selected economic issues and analyze a range of policy responses.

ECON-2223. Political Economy of Women (SOCI 2643) (GEND) (HMRT)

This is a seminar course examining, in depth, selected topics on the political economy of women. Potential topics include women as paid workers, domestic labour, and women and poverty.

ECON-2303. Gender in the Global South: A Political Economy Perspective (SOCI 2623) (HMRT 2233) (GEND)

This course will critically examine the role of women in the global South. It will concentrate largely on the changes in these roles and their correspondence with the transition from traditional to new forms of economic organization, production, and power.

ECON-2313. Multinational Corporations and Trade

This course deals with the strategies of multinational corporations, the scope and impact of international trade, and the structure of international trade agreements.

ECON-2333. Ecological Economics (ENVS)

Starting from the understanding that the economy is a subsystem of the ecological lifesupport system, the course utilizes a transdisciplinary approach (ecological, social and economic) to examine the problems of scale, equity, and e ciency in contemporary human social formations. The course will also discuss the distinctive policy implications of ecological economics. No prerequisite required.

ECON-2403. Economics of Poverty

This course examines the extent of economic inequality in Canada and around the world, and analyzes how a uence and poverty are generated in a market economy. Important social programs are investigated and evaluated in terms of their e ectiveness in reducing poverty in Canada.

ECON-2423. Political Economy of Crime

This course provides an overview of two theoretical perspectives on crime: the individualistic neoclassical tradition and the more systemic framework of political economy. The rst part of the course introduces the two main conceptual frameworks and is followed by an examina

ECON-3323. Environmental Economics (ENVS 3333)

An examination of the relationship between the ecological system, economics, and institutions. Topics covered may include such issues as technological choice, steady state economics, limits to growth, the adequacy of the market mechanism, world food supplies, the economics of conservation, and alternative futures.

ECON-3333. Perspectives on Underdevelopment

An examination of the economic problems facing underdeveloped countries using a Political Economy approach. Theories of dependence, colonization, unequal exchange, and their Marxist critiques will be examined as well as the limitations of traditional economic development theory.

ECON-3343. Banking and International Finance

This course examines the nature and role of money, prices, interest rates, and international nancial ows. It also includes an examination of the structure and activities of nancial institutions in Canada and other countries.

ECON-3433. Economics of Government

This course focuses on the nature of public sector choices and decision-making processes. Topics include government expenditure choices, cost-bene t analysis, tax policy issues, and federal-provincial relations.

ECON-3443. New Brunswick Economy

This course will examine the structure of the New Brunswick economy, analyze some of its major problems, and discuss various approaches to economic development.

ECON-3453. Labour Economics

ECON-4001133 Malable enablished all Economics I

A study of mathematical techniques for economic analysis. This course emphasizes the study of fundamental methods of mathematical economics. The topics covered include a detailed study of the techniques of di erentiation in the context of single and multiple variables, optimization techniques with and without constraints, a simple treatment of di erence and di erential ewal3o2ipTr,wloptis:mpicsAariables, iables,

ECON-4193. Econometrics II

This course deals with some advanced problems of estimation and inference in single equation

BUSI-3023. Nonpro t Management (ENVS 3033)

The course introduces students to the speci c issues that arise in managing nonpro t organizations. Topics covered include strategic planning, accountability, board governance, nancial planning, fund raising, and human resources.

BUSI-3033. Labour Relations and Collective Bargaining (ECON)

The course examines collective bargaining in its historical and institutional context. Topics include the history of the labour movement, the attainment of bargaining rights, the collective bargaining process, the grievance and arbitration process, and the legal environment.

BUSI-3513. Introduction to Industrial and Organizational Psychology (PSYC 3533)

Industrial and Organizational (I/O) Psychology is an area of psychology focused on acquiring and applying knowledge of human behaviour in work contexts. In this course students will be introduced to the theories, methods, ndings, and applications of industrial and organizational psychology. A comprehensive list of I/O topics will be covered using lectures, /MCID 43((&Lang (n)-US)/MCIss(quiiv)10 (eit (,pplicassic pla (t)3.1 (. I)-10 P)on trr)10 (ed usinTJsi)2.9 (s: (C.
